
Instructions for registering

Whenever you either register or login to the site you will find that it takes you straight back to the homepage of paulerspury.org. This is frustrating HOWEVER, you are logged in correctly - when it does this please click on the forum link on the left hand menu again (Paulerspury Forum) and you should be taken into the forum and you will be logged in and be able to post or reply.

Sadly this is a foible is an inbuilt function of the software used for the forum and we can't change it.

Thanks for your patience.

USERS - If you already have a username for the site (ie if you are an editor of a section), that login name and password should also give you access to the forum.
